Hi Martin, Both the cover letter and my resume are perfect, thank you. I know the amount of work you have put in to their presentation was considerable and this reflects in their truthful streamlined simplicity. I will definitely have no trouble in referring your services.... **Accountant**

Hi Martin, This is to thank you for the great job you did with my resume. I landed a position in the mining business, as we targeted... The work I am doing is the sort of activity I had in mind to use the skill sets you highlighted so effectively in the resume. The interview process was significantly enhanced, with the resume acting as a very effective marketing platform from which I could project a well presented story. I think this may be the most powerful aspect of the well crafted document you created. Well done, and thank you Martin - I will definitely be recommending you to more friends and colleagues who may need your services. **Business Analyst (Mining)**

I can't thank you enough for what you have achieved in such a short amount of time. The resume looks grand; I am SO pleased with it. It will be my pleasure to recommend your services to friends and colleagues! I will definitely let you know how I get on with the process and outcome... I am up against some very experienced professionals. It has been so lovely meeting and working with you. You have such a gift! Thank you. **WA Government Administrator**

Thank you, thank you! You have achieved, in the first draft, a resume I am already so proud of! WOW, I couldn't be happier....What a difference it makes to have someone who knows how to make fantastic upgrades to a very simple CV. I'm so grateful! **Executive Assistant/Project Manager**

Martin, This e-mail is to inform you of how exceptionally pleased I am with the high quality resume you produced for me recently.....I signed up for my new role as a Senior Process Engineer with an international manufacturing company last week. I am in no doubt that my new employer's initial interest....was a result of the very professional and extremely well laid out and presented resume that you produced for me. It is a credit to your skills and abilities that you can utilise someone's experience and input to produce such an accurate portrayal of that person and their employment history whilst highlighting how much they can offer prospective new employers. It definitely worked in this case. Thank you very much once again. **Senior Process Engineer**

I am pleased to inform you that as of next Tuesday, I will be starting my new job as a trainer ... They informed me that I had a pretty comprehensive resume and it was more of a meet and greet than an interview! Thank you again for the resume, your professionalism and attention to detail. I have no hesitation passing your details to others who may be in need of a professionally written resume. **VET Trainer/Assessor**
